The Directorate of Medicinal and Aromatic Plants Research (DMAPR) organised one day training for promoting medicinal plants cultivation to uplift livelihood and health security of SC community at Vinzol, Godhara, Gujarat. Since, it is a traditionally castor, pigeon-pea and wheat growing area. We had conducted one day training program and total 150 poor farmers participated. The training programme was inaugurated with the floral welcome of village sarpanch Shri Jethabhai Khatubhai Vankar by Dr. R. P. Meena, member and organising secretary of the programme under SCSP. Followed by, Dr. Gajbhiye, Dr. P. L. Saran and Dr. K.A. Kalariya presented floral bunches to other guests including Shri Hirabhai Banabhai, Kantibhai Ganeshbhai, C. Kanjibhai Vankar and Parmanand K. Vankar, who helped in conducting this programme. The program was started with the general introduction of scheme by Dr. P. L. Saran, chairman SCSP and also delivered a lecture on sustainable cultivation of MAPs in Gujarat. Dr. K. A. Kalariya, told about the scientific cultivation of medicinal plants. Dr. R. P. Meena, emphasised on use of quality planting material for cultivation of medicinal plants to avoid the pest and disease incidence and also about the disease management in MAPs. Dr. Gajbhiye delivered lecture on overview of Directorate and quality of MAPs. Overall five lectures had been delivered on different aspects of cultivation and management of MAPs. During this programme, a plastic pipe (~30.0 meter) for kitchen gardening and farmer kits were distributed among the 150 participants. The programme was concluded with the vote of thanks proposed by Dr. P. L. Saran.
