

Farmers Training on “Cultivation and Conservation of Medicinal plants”

(16-22 Feb., 2018)

Farmers training on “Cultivation and Conservation of Medicinal plants” have been successfully conducted at ICAR-DMAPR, Anand, Gujarat sponsored by Chhattisgarh State Medicinal Plants Board. This training has been conducted from 16th February to 22nd February, 2018 for 14 farmers of Chhattisgarh. The farmers were trained mainly on Good agricultural practices, Good collection practices, Organic production technology, Conservation and Marketing of medicinal plants. The trainees visited progressive medicinal plants farmers’ field in Anand district of Gujarat and learnt the different cultivation aspects and field level post harvest technologies being followed in medicinal plant cultivation. The trainees also got exposure in identification of different medicinal plants and its medicinal values.
